17<sup>th</sup> May 2017

Dear Parents and Carers,

As part of some ongoing study for an MA in Education, I am carrying out a final project which relates to the teaching of mathematics in Reception. This is part of the whole school development plan.

I have attached details of the project for you.

I am required to use some numerical data in my dissertation at the end of the project (July 2017) to show the attainment made by the Reception children in mathematics. This would be a percentage (eg. X% of the children in Reception achieved their Early Learning Goal in 'Number')

**Your child would not be named**, but their 'data' would contribute to this percentage. Data will only be used if I have your consent.

I would greatly appreciate your consent to use this data. However, your consent is voluntary and you have a right to withdraw from this. If you would like to withdraw from the study, please complete and return the slip below

If you have any questions about the study, please arrange to see me to talk about it.

Kind regards,

Lucy Andrews

Early Years Leader
