6th January 2017

Dear Parents/Carers

We would like to invite you and your child to come back to school at 5.00pm on Wednesday 11th January to a star gazing opportunity. Hopefully it will be a clear night, however if the weather is not suitable we will cancel early on that day and let you know through schoolcomms and also at the end of the school day.

We will spend some of the time outside looking at the stars and planets and then we will move into the hall for hot chocolate and a biscuit. We will also have books available about the sky at night. We are expecting this to take between half and one hour.

Everyone will need to be dressed warmly and we would ask that your children stay with you at all times because in the dark and with the possible numbers we will not be able to supervise them all. If your child is coming with another parent please make sure they know that they should stay with that adult. You are also welcome to bring other siblings but, again, they are to stay with you at all times please.

It might be useful for the children to bring a torch with them, and if you have a star gazing app on your phone this will help you chat about what you can see. Binoculars and/or telescopes would add to the experience.

We look forward to seeing you next Wednesday.

The Year One Team
